

## **Zeeland Vision's Response to COVID-19 and Our Commitment to Serving Our Patients**

As the coronavirus (COVID-19) continues to spread in the U.S. and across the globe, we want to let you know what Zeeland Vision is doing to respond to this pandemic.

Per CDC guidelines, if you have traveled outside of the country or have been in known contact with persons with flu symptoms, or yourself are experiencing symptoms, we request that you reschedule your appointment for a later date.

Zeeland Vision doctors and staff have always been committed to making sure all office areas, equipment, and examination rooms are being disinfected. Our doctors and staff are also continuing protocol by washing their hands often.

For patients with appointments, we ask that you try to keep at least a 6 foot distance between each other to reduce risk of potential spread. If you have to cough, please direct away from others and into your elbow.

If you are interested in browsing our glasses in our frame area, please feel free to do so with the help of our opticians. This is a necessary requirement in order to keep our frames sanitized between patients.

Thank you for being flexibility and understanding!
